

Radiant Dyes Laser Acc. GmbH

Modification and Overhaul of existing Lasers and Accessories

Modification and Overhaul of all commercial available dye lasers, cw- and pulsed

for example:

- * Basic adjustment
- * Modification to improved bandwidth
- * Installation of new gratings
- * Improvement of the original mechanic components
- * Modification for different pump optics

Modification and Overhaul of old Lasersystems and Laser Accessoires:

- * Coherent and Spectra Physics dye lasers
- * Coherent Dye circulators
- * Coherent pump Geared pump
- * Spectra Physics pump
- * Dye flow cell units
- * Lambda Physik FL 45 Dye-Selectors

On request we can offer you a qualified and cost-effective training on all existing dye laser (cw and pulsed)
